PROFILE

Automotive and financial analysis professional with 6+ years of experience across cost optimisation, collections, business analysis and industrial operations. Strong background in financial recovery, advanced data analysis, SAP, KPI reporting and cross-functional problem solving, with experience at Mercedes-Benz Bank and FORVIA.

PROFESSIONAL EXPERIENCE

MERCEDES-BENZ BANK AG | Berlin

SB Collection Management | Collections & Receivables

Sep 2026 - Present

- Manage overdue financing accounts throughout the collections lifecycle, analysing individual cases and determining appropriate resolution paths.
- Negotiate compliant repayment arrangements and resolve payment-related cases while maintaining accurate financial documentation.
- Coordinate complex cases with Mercedes-Benz dealerships, internal teams, insurance providers and legal functions.
- Review cases returned from insurance or legal escalation and ensure accurate follow-up through resolution.

AETIUS MEDIA | Independent activity

Founder & Independent Consultant

Apr 2025 - Present

- Design, develop and manage digital platforms and online services from concept to deployment.
- Develop information-monitoring tools and lead digital projects across technology, media and online services.

FORVIA | Automotive Seating in Hannover

R&D Project Manager – Efficiency & Transformation

Apr 2023 - Apr 2025

- Led an R&D cost-saving programme that delivered €19–20M in annual savings against a €12M target, working with R&D directors to identify, structure and track savings initiatives.
- Translated AI and digitalisation needs into structured business requirements in collaboration with digital and IT teams.
- Developed KPI frameworks to support strategic decision-making and prioritisation of transformation initiatives (more than 100K savings).
- Coordinated global R&D communications, including more than 80 articles and events focused on AI and digital transformation.

PROFESSIONAL EXPERIENCE CONTINUED

SFR | Telecommunications Paris (France)

Financial Project Manager

Sep 2021 - Sep 2022

- Conducted financial and business analysis for around 10 product launches per week.
- Structured business requirements in Jira and aligned business and IT teams in an Agile environment.
- Built KPI dashboards and supported compliance, GDPR assessments and risk management across 30+ contracts.

EFS | French Blood Service – Toulouse (France)

Environmental Development Officer

Sep 2019 - Sep 2021

- Analysed operational, quality and compliance processes across 10 international sites and coordinated improvement initiatives.
- Managed environmental contracts, chemical risk assessments and HSE performance indicators across regional operations.

TESTIA | Airbus Group – Toulouse (France)

Quality and Safety Project Officer

Sep 2018 - Sep 2019

- Analysed operational and compliance processes across 10 international sites and coordinated improvements.
